4. January 8

Dear Sir

Yours of 3rd inst. at hand and contents noted.

In regard to the One dollar Gold and Half and Quarter dollars silver of date of 1887, I received authority at the latter part of the year to coin a limited number of each more to keep the continuity of yearly dates than for furnishing an added supply of those denominations for general circulation, having in view the great demand for those I have struck.

I am obliged to limit the distribution to quite a small proportion to those who apply for them.

I can furnish you with five one

dollar gold pieces and five dollars worth of halves and five dollars worth of quarters This is the most I can do

In striking your medals it was discovered that the dies are scratched — Especially the Suydam dies — to such an extent that no work from them would be presentable. are thus put up in the course of a year and this is the first complaint I have heard of any package upon its delivery not containing what it purported to contain.

The Mint is not responsible for the safe transportation or delivery of the package. The Express Company assumes that responsibility. You should have opened the package in presence of the Express agent from whom you received it.

SUPERINTENDENT'S OFFICE.

May 21st 1888

Sir:

The Mint cannot supply you with the half and quarter dollar pieces as requested.

The practice has been to issue a few uncirculated halves and quarters near the close of the year and furnish each applicant with two pieces of each.

June 16th 8

Sir:

I have had the accounts of the Medal Fund for the first three quarters of the current fiscal year amended to conform to your suggestions and both sets of papers are herewith enclosed.

In reference to the gain on silver I have to say that it is an indeterminate quantity which represents the difference between the weight of standard silver dollars given to the Coiner in payment for silver medals and the same amount of half dollars, the latter being the

2

standard of weight. If the payment were always made in silver dollars and the full amount were tendered the gain would show about a dollar on every fifteen of the total amount of the Coiner's bills for silver medals. Sometimes however the excess or the greater part of it is subtracted first and sometimes a portion of the payment is made in halves and quarters, in which case the gain is somewhat less than the due proportion of one to fifteen.
